The Role of Acupuncture and Counseling in the Management of Infertility

You are warmly welcomed to join in this presentation by two practitioners experienced in working with individuals and couples who are seeking **emotional/psychological support and, or acupuncture** for infertility. This seminar will give participants an introduction to the breadth and depth of psychological support and acupuncture in the realm of infertility.

Often those who are attempting to start a family wait until all else has been tried to incorporate counseling and/or acupuncture to the effort, yet these can be very beneficial much earlier in the process. At any point along the way though, they can help to enhance awareness of physical and emotional patterns that come into play with such a heartrending experience.

Numbers will be limited so please call to RSVP by Wednesday August 11th, 2010. 440.835.0664 or 216.221.2632

Please also feel free to email or call with questions.
